<Dan.Scheppers@dphe.state.co.us>

Daniel Heffernan/R8/USEPA/US@EPA

All, I needed to separate the Upper Cement Creek activities from the Upper Animas Mining District so have done a discovery and gotten a new Site Spill ID for the Upper Cement Creek site. The SSID is A830. This also means that I will need to do a quick desk top Site Reassessment #2 for the Upper Animas Mining District to close out the Analytical Results Report from late 2010's sampling. That ARR will also be associated with the SI for the new Upper Cement Creek site. I also will need to do an abbreviated PA showing that the new site warranted SI and HRS package prep activities. This all needs done despite not proposing the site in March 2012.

Sincerely,

Sabrina Forrest
